LAST PERSTEMPO MONTHLY…

In last years PERSTEMPO Monthly the ARPERSCOM PERSTEMPO Management Team informed all of the PERSTEMPO Professionals out there to identify their Unit Administrators.
You must go through your chain to fix problems before you call MACOM Administrators.

MONTHLY READINESS REPORTS

Make sure you start to understand how your AHRI's work out there because Monthly Readiness Reviews from all of the MACOM's will be a requirement in the new year. The report is in conjunction with the Army Chief of Staff IG recommendation, and will be due at the beginning of each month.

PERSTEMPO IS NOW ON AKO

The capability for individual soldiers to view their PERSTEMPO count has been added to AKO on 3 December 2002.
To access AKO PERSTEMPO counts
All you have to do is sign in to AKO, at the screen, select **"self Service"** then select "**my personnel"** and you're in!
For more information on this service go to:

PERSTEMPO WEBSITE DOWN!

On 23 December 2002, OCAR PERSTEMPO Management Personnel shut down the PERSTEMPO website for revision purposes. To date it is still down. All information of soldiers PERSTEMPO events will be stored and input by ISA when the system is again operational. Stand by for more information.

AORS DESKSIDE REFERENCE

Personnel initiating orders must check to see if the event is creditable PERSTEMPO event before checking the box on the 237 screen "Yes". If orders initiators are not certain, they can find a **step-by-step guide by going to the 'G' Drive, Open the PERSTEMPO folder and click on 'AORS Instructions'.**

ARE ALL STATIONS TRACKING?

It is important to remember that tracking is done at all stations during the event. The order originator (usually the PMO) must verify that the soldier is not over or approaching the 220-day threshold without GO approval before the 8 October 2001 suspension date. Once the soldier goes mobilizes, the Personnel Reception Station (at Fort Benning) or the gaining unit must verify and annotate the soldiers PERSTEMPO status again. Once the deployment is complete, the same process takes place in reverse.

INTEGRITY OF PERSTEMPO

The integrity of a unit's AHRS PERSTEMPO database information must be protected. Immediately report the departure of all account holder to your unit's User Administrator whereas the departing individual's account can be inactivated.
